

Dimensions Expert Software for 3D Printing

Dimensions Expert (DI0800-050000B)

- **NEW:** Free Viewing Directions and Selection Mechanism
- **NEW:** Fully Resizable Model Tree
- **NEW:** Efficient Data Structures to Input and View Large Triangulated Models
- **NEW:** Workflow and Tools Window to Access Mostly Used Repair and Manipulation commands
- **NEW:** Intuitive Menu Structure to Support the Workflow
- **NEW:** Help Text window to Aid in the Repair Process
- **NEW:** Reliable Network Licensing System
- **NEW:** Check Thin Walls command, Flip Selection and Triangle Normal
- **NEW:** Efficient 3DE File Format to Store Full Topology, Color and Texturing Information
- Input STL, VRML, ZPR, OBJ, DXF and DA Files, Write STL, VRML, ZPR and 3DE Files
- Automatic Verify and Repair
- Manual Repair and Edit
- Model Splitting and Connectors
- Platform Definition and Model Positioning
- 3D Viewing, Transformation and Measuring
- Converting VRML 1.0 geometry to VRML 2.0 geometry
